

Aims of talks: “Respect for life begins with concern for Animals”. We believe that education is an important path for the public to learn how to take care of animals, so we provide some ways for you and hope that people who visit our centre would know the animals’ needs, give careful consideration before homing a pet and helping us to promote the welfare of animals. You are welcome to join us with a tour or invite us for a lecturer & learn how to be a good owner.
