

ENVIRONMENTAL POLICY

Motto: Responsible pet ownership; responsible citizen of the world

SPCA (HK) is committed to ensuring that all activities are conducted in an environmentally responsible manner.

We will:

Comply with all applicable environmental legislation, standards and regulations;

Support biodiversity;

Take every reasonable, practicable and cost effective measure to conserve resources, minimise waste and reduce our environmental footprint;

Seek environmentally friendly options where cost effective opportunities exist when selling and sourcing goods and services;

Store, handle and dispose of hazardous substances, medical waste, animal waste and carcasses in line with SPCA (HK)'s safety policies, environmental legislation and industry best practice;

Encourage environmental awareness among stakeholders, members, staff and the community at large through effective communication;

Strive to continuously improve and report our environmental performance.

Approved by Executive Committee on
20 January 2009
